ECENTRIC GEOMETRIC

Eccentric Geometric brings together works by
**Rana Begum, Colin Booth, Deb Covell, Jo McGonigal,
Patrick Mifsud, Shawn Stipling, Finbar Ward and Alison Wilding**

PRIVATE VIEW 4TH MAY 2017, 6.30-8.30pm
5th - 29th May 2017, Open Thursday - Sunday 3pm - 7pm

Arthouse1 presents 'Eccentric Geometric' a tightly curated group show, that brings together some of the UK's finest emerging, mid-career and established artists, all with collective concerns that so interestingly justify the show title. Conventional 'geometric' issues such as pattern, shape, repetition, line and spatial relationships are 'Eccentrically' understood. Whilst acknowledging overlaps with Post-Minimalism, the curators expose explorations of geometry that reveal the complexities and quirks of our lived experience. These artists deploy the principles of geometric order but don't offer the simplicity of visual sensation alone... there is an empathy with the materiality and physicality of a lived life. This bold, thoughtful show is curated by Deb Covell and Jo McGonigal.
